

MILLIONAIRE DIZITAL LLP — WEBSITE

CONTENT BLUEPRINT

Reference: nudot.com.tw · **Palette:** Gold · White · Emerald (minor) · **Domain:** millionairedizital.com

Hand this to your designer and developer. Every section below is a content slot with the copy direction already written. Fill the blanks marked [] with your own assets and numbers.

PART 0 — TWO DECISIONS TO MAKE BEFORE ANYTHING GETS DESIGNED

0.1 The dark-canvas dependency

NUDOT's theme colour is #030303 — near black. Almost all of its perceived luxury comes from **gold-adjacent accents glowing on near-black**. Gold on white does not read as luxury; it reads as beige and disappears on screens.

Recommendation:

Role	Colour	Usage
Base canvas	#0A0A0A – #0D0D0D near-black	85% of every screen
Primary accent	Gold #C9A44C → #E8CE8B gradient	Headlines, dividers, hover states, numerals
Text	Off-white #F5F3EE	Body copy, never pure #FFFFFF
Micro-accent	Emerald #0F5132 / #1A7A4C	Status dots, tags, active nav, ~2% of surface
Inverse sections	Off-white base, near-black type	1–2 sections max, for contrast rhythm

Emerald as a *micro*-accent against gold-on-black is a genuinely uncommon combination in Indian agency sites. Used at 2%, it becomes a signature. Used at 20%, it fights the gold and looks like a Christmas palette. Hold the discipline.

0.2 The geography problem — and how the site solves it

You said it yourself: you can shoot with a camera in Rajkot and Gujarat, but you don't want the brand boxed in there, because the on-ground competition is heavy.

The fix is structural, not copywriting. Split the services into two families and give them different geographic framing:

Family	Services	Framing	Why
ON-GROUND	Cinematic shoots, BTS/UGC, product shoots	<i>"Rajkot · Gujarat · on request across India"</i>	Geo-anchored copy wins local search. This is where you want "photography and cinematic videography in Rajkot" to rank.
BUILT ANYWHERE	SMM, websites, AI automation, SEO/AEO, Meta ads, 2D/3D, AI content, graphics, editing, clipping	<i>No city named. Global.</i>	These deliver over a wire. Naming a city here caps your ceiling for no SEO gain.

The homepage leads with **BUILT ANYWHERE**. The Rajkot language lives on the on-ground service pages and one dedicated local landing page. You get the local rankings without the local ceiling.

PART 1 — SITEMAP

/ Home

/about About — the studio, the team, the philosophy

/services Services index — all 12, split into the two families

/services/cinematic-videography-photography ON-GROUND

/services/bts-ugc-content	ON-GROUND
/services/product-photography-videography	ON-GROUND
/services/social-media-management	BUILT ANYWHERE
/services/website-design-development	BUILT ANYWHERE
/services/ai-automation	BUILT ANYWHERE
/services/seo-aeo	BUILT ANYWHERE
/services/performance-marketing	BUILT ANYWHERE
/services/2d-3d-animation	BUILT ANYWHERE
/services/ai-content-creation	BUILT ANYWHERE
/services/graphic-design-brand-kits	BUILT ANYWHERE
/services/video-editing-clipping	BUILT ANYWHERE
/work	Work archive — filterable grid
/work/[client-slug]	Individual case study × 6–10
/mdz-makes-ai	AI division landing page (your sharpest positioning)
/events	Owned event IPs — Gatsby Night, Safed Sheri, CCT
/packages	Pricing / engagement models
/insights	Blog — the AEO and SEO engine
/contact	Enquiry + brief form
/digital-marketing-agency-in-rajkot	Local SEO landing page

Optional phase 2: /lab — experiments, AI tests, R&D. NUDOT has this and it is a strong credibility signal, but it needs constant feeding. Don't launch it unless someone owns it.

PART 2 — GLOBAL COMPONENTS

2.1 Page-entry slate (NUDOT's signature device — steal this)

Every page opens with a HUD-style overlay that holds for ~800ms during transition:

[00]

MDZ

index.html

MILLIONAIRE DIZITAL LLP

HOME

Content · AI · Performance

2026

Monospace, gold on black, tiny. Costs nothing, reads as expensive. Increment [00] → [01] → [02] per page.

2.2 Navigation

WORK · SERVICES · MDZ MAKES AI · ABOUT · INSIGHTS · CONTACT

Nav hover reveals a thumbnail per item, as NUDOT does. Logo centre or left. **CONTACT** gets the gold pill treatment — it's the only coloured element in the bar.

2.3 Marquee ticker band

A horizontally scrolling keyword band, repeated between major sections. Bilingual — **English + Gujarati**. This is your version of NUDOT's Chinese/English layering, and it does real work for local search and local emotional recognition.

CINEMATIC SHOOTS ♦ સિનેમેટિક શૂટ ♦ SOCIAL MEDIA ♦ સોશિયલ મીડિયા ♦

AI AUTOMATION ♦ AI ઓટોમેશન ♦ PERFORMANCE MARKETING ♦ WEBSITES ♦

BRAND KITS ♦ બ્રાન્ડ કિટ ♦ 2D / 3D ♦ VIDEO EDITING ♦ CLIPPING ♦

2.4 Capability field

NUDOT's ambient word-cloud of ~60 capability terms. Yours, drawn from real service lines:

Cinematic shoots · iPhone UGC · Product shoots · Reels · Carousels · Stories ·
Brand kits · Logo systems · Billboards · Visiting cards · Print media · Landing pages
· E-commerce · Quick-commerce · WhatsApp automation · Chatbots · AI CRM ·
Lead funnels · SEO · AEO · Meta ads · Retargeting · Geo-targeting · 2D animation
· 3D animation · AI cinematic · AI product · AI UGC · AI locations · AI avatars · AI
voiceover · Long-form editing · Clipping · Colour grading · Sound design · Drone ·
Storyboarding · Influencer coordination · GMB optimisation · Analytics · Content
calendars · Event coverage · Sponsorship decks · Podcast production

2.5 Stats block

Monospace, underscore-joined, gold. Use only numbers you can defend:

[]+_BRANDS_SERVED []+_PROJECTS_DELIVERED

[]_OWNED_EVENT_IPS BASED_IN_RAJKOT_GUJARAT

Do not inflate these. A defensible "40+ brands" outperforms an unbelievable "500+". Anyone can check.

2.6 Footer

- Full-width muted video loop (NUDOT does this — high impact, low cost)
- Two service columns: ON-GROUND / BUILT ANYWHERE
- millionairedizital.com · +91 8858585345 · +91 8260111117 · email
- Rajkot office address
- Instagram · LinkedIn · YouTube · Behance
- © 2026 MILLIONAIRE DIZITAL LLP. ALL RIGHTS RESERVED.

PART 3 — HOMEPAGE, SECTION BY SECTION

S1 · Hero

- Full-bleed muted showreel loop — your best 12 seconds, cut from real client work
- H1: **We don't do marketing. We build demand.**
- Sub: *Content, AI and performance systems for brands that want revenue, not reach.*
- Gold DOWN ↓ scroll cue
- Rotating descriptor: Content / AI / Performance / Events

S2 · Marquee ticker

Component 2.3.

S3 · Who we are

- Eyebrow: **WHO WE ARE**
- H2: **Rajkot-built. Globally deployed.**
- 60–80 words: three friends, ₹599 a piece, Rajkot businesses that needed to look world-class on a real budget. Now a full studio — content, AI, websites, performance, owned event IPs. Every service still passes the same test: does it make the client money?
- Stats block (2.5)

S4 · The four engines

NUDOT's **THE SECTORS** grid, adapted. This is how you compress 12 services into something a visitor can hold in their head:

Engine	Contains
CONTENT ENGINE	Cinematic shoots · BTS/UGC · product shoots · editing · clipping
GROWTH ENGINE	Social media management · Meta ads · SEO/AEO · influencer coordination
AI ENGINE	AI automation · AI content · chatbots · AI CRM
BRAND ENGINE	Graphic design · brand kits · websites · 2D/3D animation

Each is a card: numeral **01–04**, gold rule, English label, one-line Gujarati subtitle, 25-word description, → **Explore**.

S5 · Capability field

Component 2.4.

S6 · Selected work

// **CLIENT REGISTRY** — NUDOT's numbered archive format:

CHEF FATSO [EP.01] TROPICAL_CAFE_HOSPITALITY

ARBORA BANQUET [EP.02] BANQUET_AND_LOUNGE

BEEBLEND [EP.03] FMCG_HONEY_BRAND

GATSBY NIGHT [EP.04] OWNED_EVENT_IP

SAFED SHERI [EP.05] PREMIUM_CULTURAL_IP

TULSI OPTICAL [EP.06] OPTICAL_RETAIL

FYLEX WATCHES [EP.07] PREMIUM_ACCESSORIES

ECOEARTH [EP.08] SUSTAINABILITY_REBRAND

Hover → video preview. Click → case study.

S7 · MDZ Makes AI

Full-width dark break, heaviest motion on the page.

- H2: **We don't create content. We create content machines.**
- Sub: *AI cinematic. AI product. AI UGC. AI locations. Automations that answer, qualify and book while you sleep.*
- CTA: → [Enter MDZ Makes AI](#)

This section gets more design budget than any other. It's your highest-margin, least-comparable offer — and the one where Rajkot's price sensitivity stops mattering, because there's no local benchmark.

S8 · Owned event IPs

Most agencies show client logos. You can show **properties you own** — Gatsby Night, Safed Sheri, CCT. Nobody in your market can match that as a proof point.

- H2: **We don't just market events. We build them.**
- Three cards with attendance, ticket tiers, sponsors — [] your numbers
- CTA: → [See our event IPs](#)

S9 · How we work

Six steps, gold connector line:

01 MEET & UNDERSTAND 02 QUESTIONNAIRE + WHATSAPP GROUP 03 PROPOSAL

04 ONBOARD ON CONTRACT 05 PAYMENT & KICKOFF 06 DELIVER & REPORT

S10 · Testimonials

Three max. Named, photographed, with a number in the quote. []

S11 · Insights teaser

Latest three articles. Feeds AEO (see Part 6).

S12 · Contact CTA

- H2: **Tell us what you're selling. We'll tell you how to sell more of it.**
 - Fields: Name · Business · WhatsApp · Service interest (multi-select) · Budget band · Message
 - Alt: **Or WhatsApp us directly →**
-

PART 4 — THE 12 SERVICE PAGES

Every service page uses this template:

Page-entry slate → Hero (H1 + positioning line + hero media)

→ The problem it solves (3 bullets)

→ What's included (checklist)

→ Deliverables & formats (table)

→ Ideal for (vertical chips)

→ Process (3–5 steps)

→ Selected work (2–3 cards)

→ Pricing anchor ("from ₹___") → FAQ (4–6 Q&A, schema-marked)

→ Next service (prev/next nav) → Contact CTA

FAMILY A — ON-GROUND SERVICES

Geo-anchored. Rajkot · Gujarat · India on request.

A1 · Cinematic Videography & Photography

[/services/cinematic-videography-photography](#)

- **H1:** Cinematic Videography & Photography in Rajkot
 - **Positioning:** *Camera-shot, colour-graded, story-led. Built to make a product, a place or a person look worth paying more for.*
 - **Included:** Concept & storyboard · location recce · professional camera & lighting · direction · drone (on request) · colour grade · sound design · music licensing · raw + edited delivery
 - **Deliverables:** Hero film (30–90s) · vertical reel cutdowns · stills carousel (10–15) · raw footage handover
 - **Ideal for:** Restaurants · cafés & lounges · salons & beauty · jewellery · showrooms · resorts · real estate · venues
 - **Coverage:** Rajkot & Gujarat standard · rest of India on request
 - **From:** ₹15,000 (video + edit) · ₹10,000 (photos + graphics) · ₹10,000 (drone)
 - **Keyword targets:** cinematic videography Rajkot · product video shoot Rajkot · commercial photography Gujarat · restaurant video shoot Rajkot
 - **Assets needed:** [] 3 best hero films · [] before/after grade stills · [] BTS of the crew working
-

A2 · BTS & UGC Content — Shot on iPhone

[/services/bts-ugc-content](#)

- **H1:** BTS & UGC Content, Shot on iPhone
- **Positioning:** *The format the algorithm actually rewards — raw, fast, human. Shot on iPhone on purpose, not on a budget.*

Frame the iPhone as a choice, never a constraint. The honest argument is strong: platforms reward native-feeling content over polished ads, iPhone lets you shoot 10× the volume for the same money, and volume is what compounds on social. Say that out loud on the page — it converts better than pretending you used a cinema rig.

- **Included:** Founder-led scripting · one-day multi-format capture · natural-light setup · vertical-first framing · captions & subtitles · trend-audio matching · batch delivery

- **Deliverables:** 8–20 vertical pieces per shoot day · talking-head cuts · BTS b-roll · story frames
 - **Ideal for:** Coaches · consultants · trainers · doctors & clinics · educators · founder-led brands · knowledge businesses
 - **From:** [] per shoot day
 - **Keyword targets:** UGC content creator Rajkot · founder led content India · iPhone content shoot Gujarat · BTS video Rajkot
-

A3 · Product Photography & Videography

[/services/product-photography-videography](#)

- **H1:** Product Photography & Videography
 - **Positioning:** *Listing-ready, ad-ready, shelf-ready. Built to the exact specs each platform demands.*
 - **Included:** Studio & lighting setup · styling & props · 360° and detail passes · macro (jewellery-grade) · white-background compliance · retouching · platform-spec exports
 - **Deliverables:** Amazon/Flipkart-compliant sets · quick-commerce tiles (Blinkit, Zepto, Instamart) · website hero images · ad creatives · vertical product reels
 - **Ideal for:** Jewellery · FMCG · e-commerce · quick-commerce · D2C · packaged food · accessories · watches
 - **From:** ₹10,000
 - **Keyword targets:** product photography Rajkot · jewellery photography Gujarat · Amazon product photography India · ecommerce product shoot
-

FAMILY B — BUILT ANYWHERE

No city named. Delivered worldwide.

B1 · Social Media Management

[/services/social-media-management](#)

- **H1:** Social Media Management That Moves Revenue, Not Just Reach
- **Positioning:** *Strategy, calendar, creative, community and reporting — one system, one accountable team.*
- **Included:** Monthly strategy · content calendar · reels, carousels, statics, stories · caption & hashtag research · scheduling & publishing · DM & comment management · community engagement · monthly analytics · Google Business Profile upkeep

- **Deliverables table:**

	Starter	Growth	Signature
Reels	8/mo	12/mo	16+/mo
Photos	10/mo	15+/mo	20+/mo
Carousels	3/mo	5/mo	6–7/mo
Stories	4–6/wk	Daily	Daily, branded
Ad campaigns	—	2/mo	4/mo
Influencer collabs	—	—	2–3/mo
Reporting	Monthly	Detailed	Priority strategy calls
Price	₹15,000/mo	₹23,000/mo	₹35,000/mo

Ad spend and influencer fees billed separately.

- **Ideal for:** Restaurants · retail · clinics · real estate · D2C · events · personal brands
- **Keyword targets:** social media management agency India · social media marketing packages · instagram management for restaurants

B2 · Website Design & Development

[/services/website-design-development](#)

- **H1:** Websites Built to Convert, Not Just Exist
- **Positioning:** *Retention-first architecture. Every section earns its place or gets cut.*
- **Included:** Discovery & information architecture · UX wireframes · custom UI design · responsive build · CMS · speed & Core Web Vitals optimisation · on-page SEO foundation · analytics & pixel setup · lead-capture integration · WhatsApp integration · one month post-launch support
- **Deliverables:** Landing pages · brochure sites · e-commerce · quick-commerce · booking flows · event microsites
- **Ideal for:** D2C brands · hospitality · real estate · clinics · exporters · events · professional services
- **From:** [] for landing pages · up to ₹1,50,000 for premium builds
- **Keyword targets:** conversion focused website design · ecommerce website development India · landing page design agency

B3 · AI Automation

</services/ai-automation>

- **H1:** AI Automation — Systems That Answer, Qualify and Book Without You
- **Positioning:** *Your business doesn't sleep. Neither should your follow-up.*
- **Included:** Process audit & automation mapping · WhatsApp Business automation · website & Instagram chatbots · lead capture → qualification → CRM routing · automated follow-up sequences · appointment & booking flows · AI CRM setup · internal task and reporting automation · team training & handover docs
- **Deliverables:** Live automation workflows · chatbot with trained knowledge base · CRM pipeline · dashboard · SOP documentation
- **Ideal for:** Clinics · real estate · education · service businesses · D2C support · any business losing leads to slow replies
- **From:** []
- **Keyword targets:** whatsapp automation for business · AI chatbot for business India · marketing automation agency · AI CRM setup

B4 · SEO + AEO

</services/seo-aeo>

- **H1:** SEO + AEO — Rank on Google. Get Cited by AI.
- **Positioning:** *Search didn't die, it split. We optimise for both halves.*

This page is your single best differentiator. Very few Indian agencies are selling AEO yet. Explain the distinction plainly — clients don't know it and will pay to have it solved.

- **SEO included:** Technical audit · keyword research & mapping · on-page optimisation · site architecture · Core Web Vitals · internal linking · schema markup · local SEO & Google Business Profile · backlink strategy · monthly reporting
- **AEO included (AI Engine Optimisation):** Entity & brand-knowledge structuring · question-first content built for direct answers · FAQ and HowTo schema · citation-ready formatting · consistency across the web so AI models resolve your brand correctly · monitoring of brand mentions in AI answers
- **Deliverables:** Audit report · keyword & content roadmap · implemented on-page fixes · schema deployment · monthly rank + AI-visibility report
- **From:** []/mo
- **Keyword targets:** AEO services India · AI engine optimization agency · SEO agency for AI search · answer engine optimization

B5 · Meta Performance Marketing

/services/performance-marketing

- **H1:** Meta Performance Marketing — Spend That Reports Back
- **Positioning:** *Creative-led testing, not budget-led guessing.*
- **Included:** Account & pixel setup · audience research · funnel architecture (cold → warm → retargeting) · creative production & variants · A/B and multivariate testing · geo and interest targeting · daily monitoring · CAPI & conversion tracking · weekly optimisation · transparent reporting on CPL, CPA, ROAS
- **Deliverables:** Campaign structure · ad creative sets · landing page recommendations · weekly performance report · monthly strategy review
- **Ideal for:** Restaurants (footfall) · real estate (site visits) · clinics (appointments) · D2C (purchases) · events (ticket sales)
- **From:** []/mo management fee, ad spend separate
- **Keyword targets:** meta ads agency India · facebook ads management · performance marketing agency · instagram ads for restaurants

B6 · 2D & 3D Animation

/services/2d-3d-animation

- **H1:** 2D & 3D Animation
 - **Positioning:** *For everything a camera can't reach — how it works, what's inside, what it becomes.*
 - **Included:** Script & storyboard · style frames · character or product modelling · rigging · animation · texturing & lighting · render · sound design & VO · versioning for each platform
 - **Deliverables:** Explainer films · product walkthroughs · logo animations · 3D product renders · motion graphics packs · title sequences · social cutdowns
 - **Ideal for:** Manufacturing & exports · SaaS · real estate walkthroughs · FMCG packaging · education · anything technical or not-yet-built
 - **From:** []
 - **Keyword targets:** 3d animation studio India · explainer video company · product animation services · logo animation
-

B7 · AI Content Creation

/services/ai-content-creation *Primary child of /mdz-makes-ai*

- **H1:** AI Content Creation — Cinematic Output Without the Production Line
- **Positioning:** *Locations you never flew to. Models you never booked. Shot lists that never needed a crew.*
- **Sub-services, each its own block with a video sample:**

Type	What it is	Replaces
AI Cinematic	Film-grade sequences, generated	Location shoot + crew + gear
AI Product	Product placed in any environment, any lighting	Studio day + set build
AI UGC	Creator-style talking-head content at volume	Influencer fees + scheduling
AI Locations	Any city, any season, any hour	Travel + permits
AI Avatars & VO	Presenters and voice in multiple languages	Talent + dubbing
AI Invitations	Cinematic event invites, 24-hour turnaround	Full production cycle

- **Included:** Prompt engineering & art direction · brand-consistency controls · iteration rounds · human post-production, grade and sound · commercial-use-ready delivery
- **From:** ₹15,000 (AI invitation + edit) · rest []
- **Keyword targets:** AI video production India · AI UGC content agency · AI product photography · generative AI content studio

Be transparent that it's AI. Audiences and platforms are getting better at detecting it, and clients who feel misled churn. "AI-generated, human-directed" is a stronger and more durable claim.

B8 · Graphic Design & Brand Kits

/services/graphic-design-brand-kits

- **H1:** Graphic Design — Logo to Billboard

- **Positioning:** *One visual system, applied everywhere, consistent at every size.*
 - **Included:**
 - **Identity:** Logo design & variants · logomark & wordmark · colour palette · typography system · brand elements & patterns · usage guidelines · full brand kit document
 - **Digital:** Social templates · reel covers · carousels · story frames · email headers · web graphics · ad creatives
 - **Print:** Visiting cards · letterheads · brochures · menus · packaging · standees · flex · hoardings · billboards
 - **Deliverables:** Source files (AI/PSD/Figma) · export sets (PNG/SVG/PDF/CMYK) · brand guidelines PDF · print-ready artwork at correct bleed
 - **Ideal for:** New brands · rebrands · brands whose visuals drift across channels
 - **From:** []
 - **Keyword targets:** brand identity design India · logo design agency · brand kit design · billboard design services
-

B9 · Video Editing & Clipping

[/services/video-editing-clipping](#)

- **H1:** Video Editing & Clipping
 - **Positioning:** *One long-form recording becomes thirty pieces of content. That's the whole business case.*
 - **Included:**
 - **Editing:** Multicam sync · story structure · pacing · colour grade · sound mix · music · motion graphics · subtitles · platform-spec exports
 - **Clipping:** Long-form ingest (podcasts, webinars, interviews, lectures, streams) · hook identification · vertical reframing with subject tracking · animated captions · branded end cards · titles & hashtags per clip · scheduling-ready delivery
 - **Deliverables:** Master edit · 15–40 vertical clips per long-form asset · thumbnail options · caption files
 - **Ideal for:** Podcasters · coaches & educators · founders publishing consistently · event organisers · anyone sitting on unused long-form footage
 - **From:** [] per long-form asset
 - **Keyword targets:** podcast clipping service · video editing agency India · long form to short form content · reels editing service
-

The trends caveat — put it on the services index, not on every page

You mentioned the market keeps evolving and new service requirements keep appearing. Handle that with one honest block at the bottom of [/services](#):

Not on this list? This market changes every quarter. New formats, new platforms, new tools. What stays the same is how we work — understand the business, build the system, measure the money. If you need something we haven't named here, ask. If we can't do it well, we'll say so.

That converts better than an inflated capability list, and it protects you from being held to something you'd rather not deliver.

PART 5 — REMAINING PAGES

/about

Page slate → marquee → founding story (three friends, ₹599, Rajkot) → philosophy: **"We build demand"** → the four engines restated as capabilities with a paragraph each → team grid (Vikram, Kishan, Zainab, Himanshu, Hemangi — name, role, photo, one line) → // CLIENT REGISTRY → // RECOGNITION [] → office photos → CTA

NUDOT lists design awards under // GLOBAL CONTENDERS. If you don't have awards yet, don't fake the section — replace it with client numbers or press mentions. Empty credibility frames read worse than no frame.

/work and /work/[client]

Filterable archive: by engine, by vertical, by service. Each case study:

Client · Vertical · Services deployed · Timeline

The brief (what they came with)

The insight (what we saw that they didn't)

The work (hero film, stills, screens, creatives)

The result — [] real numbers, or an honest qualitative outcome

Client quote

Next case study

Three complete case studies beat ten thin ones. From your archive, the strongest candidates are **Chef Fatso** (weekday footfall turnaround — clearest before/after story), **BeeBlend** (full-funnel: persona → SEO → content), and **Safed Sheri** (owned IP, luxury positioning, ticketing). Build those three properly before adding any more.

/mdz-makes-ai

Its own visual language — darker, more motion, more emerald. Hero: **"We don't create content. We create content machines."** Then: the six AI content types with live samples → AI automation demos (embed a working chatbot) → the economics (what a traditional shoot costs vs an AI pipeline, honestly stated) → AI + human workflow diagram → CTA.

/events

"We don't just market events. We build them." Gatsby Night, Safed Sheri, CCT — each with concept, visual identity, attendance [], ticket tiers, sponsors, aftermovie. Then two CTAs: *Sponsor an MDZ event* and *Let us build yours*.

/packages

Master ladder ₹15,999 → ₹1,50,000. The 5+5+5 entry explained. The three SMM tiers. À-la-carte project rates. Retainer band ₹25,000–₹1,00,000/mo. Custom-quote CTA.

Publish real numbers. Price-sensitive markets self-qualify when they can see the range, which means fewer wasted calls. "Contact for pricing" filters out the wrong people *and* the right ones.

/insights

Article grid. Categories: AI in marketing · Social media strategy · Local business growth · Case breakdowns · Behind the scenes. This page is the AEO engine — see Part 6.

/contact

Split screen: form left, office photo/map right. Fields: name · business · WhatsApp · email · service interest (multi-select) · budget band (uses the ladder) · timeline · message. Plus direct WhatsApp button, both numbers, email, address, response-time promise, socials.

/digital-marketing-agency-in-rajkot

The local SEO page. Rajkot-specific copy, local case studies, Gujarati-language section, local schema, embedded map, and internal links out to all 12 service pages. **This page carries the local keyword load so the rest of the site doesn't have to.**

PART 6 — SEO + AEO ARCHITECTURE

6.1 Metadata pattern

Home MDZ | Content, AI & Performance Marketing Studio

About About MDZ | Millionaire Dizital LLP — Rajkot

Service [Service] | MDZ Makes AI

Local Digital Marketing Agency in Rajkot | MDZ

Work Our Work | MDZ Client Registry

Descriptions: 150–160 characters, one benefit + one proof + one CTA.

6.2 Schema markup (non-negotiable — this is what AI engines read)

Schema	Where
Organization + LocalBusiness	Site-wide
Service	Each of the 12 service pages
FAQPage	Every service page FAQ
BreadcrumbList	All pages
Article	Every insights post
VideoObject	Every embedded video
Review / AggregateRating	Testimonials — only if genuinely collected

6.3 AEO — what actually makes AI engines cite you

1. **Write question-first.** H2s phrased as the question a person would type or ask. The paragraph immediately after gives a complete, standalone 40–60 word answer.
2. **Front-load the answer.** AI extracts the first clear statement. Don't bury it after a paragraph of scene-setting.

3. **Be consistently named everywhere.** "Millionaire Dizital LLP (MDZ)" identical across the site, Google Business Profile, LinkedIn, Instagram, directories. Inconsistent naming stops models resolving you as one entity.
4. **Use real numbers and dates.** Specifics get quoted; vague claims get skipped.
5. **Structure with tables and lists.** Both are disproportionately easy for models to extract and cite.
6. **Publish genuine first-hand knowledge.** Pricing realities of the Rajkot market, what actually works for a Gujarat restaurant, iPhone vs cinema camera economics. Nobody else has this data. That's precisely why it gets cited.

6.4 First ten insights articles (all AEO-shaped)

1. What does social media management actually cost in India in 2026?
 2. AEO vs SEO: what changes when your customers ask AI instead of Google
 3. Why we shoot UGC on iPhone — the honest economics
 4. How much should a restaurant spend on marketing per month?
 5. AI video vs traditional shoots: a real cost and quality comparison
 6. What goes into a complete brand kit? (full checklist)
 7. How one podcast episode becomes 30 pieces of content
 8. WhatsApp automation for Indian businesses: a practical setup guide
 9. What Meta ads actually cost for a Rajkot business
 10. How we built Safed Sheri into a premium cultural IP
-

PART 7 — ASSET CHECKLIST

Nothing gets designed until these exist. This is the real bottleneck on every website project.

Video

- [] Homepage showreel — 12–15s, your strongest work, no titles
- [] Footer loop — 8s abstract/texture
- [] About video — 20–30s, team working
- [] Per service page: 1 hero video
- [] Per case study: 1 hero film
- [] 6 AI samples (cinematic, product, UGC, location, avatar, invitation)

Photography

- [] Team portraits — consistent lighting, same background, all five
- [] Office / studio — 6–8 frames
- [] BTS of crew on shoots — 10–15 frames
- [] Per case study: 8–12 stills

- [] Gear flat-lay for the on-ground pages

Written

- [] Founding story, 200 words, in your own voice
- [] One-line role description per team member
- [] 3 case studies with real numbers
- [] 3 client testimonials, named and photographed
- [] 4–6 FAQs per service page (12 pages = 50–70 total)
- [] Verified stats for the stats block

Brand

- [] Logo — SVG, PNG transparent, white, gold, single-colour
- [] Exact hex codes for gold, white, emerald
- [] Licensed web fonts
- [] Favicon + [og.jpg](#) at 1200×630
- [] Icon set for the 12 services — one consistent style

Technical

- [] Google Business Profile claimed and complete
- [] GA4 + Meta Pixel + Search Console
- [] WhatsApp Business API
- [] Email on domain (not Gmail — vikram@millionairedizital.com)

PART 8 — BUILD SEQUENCE

Phase	Scope	Why this order
1 — Launch	Home · About · Services index · 12 service pages · 3 case studies · Contact · Rajkot local page	This is a complete, sellable, indexable site. Ship it.
2 — Depth	MDZ Makes AI · Events · Packages · Insights + first 5 articles	Adds the differentiators and starts the SEO/AEO engine

Phase	Scope	Why this order
3 — Compounding	5 more case studies · 5 more articles · testimonial video · Lab (only if owned)	Ongoing. This is where rankings and credibility accumulate.

Two warnings from the reference site:

Motion cost. NUDOT's feel comes from heavy GSAP/WebGL work — that's specialist frontend time, not a template. Get a firm quote on the motion layer specifically, separately from page build. It is usually the single largest line item and the one most often underestimated.

Performance. Video-heavy, motion-heavy sites tank Core Web Vitals if built carelessly, and that directly undercuts the SEO you're paying for. Non-negotiables for your developer: lazy-load all video, [webp/avif](#) images, preload only the hero, [prefers-reduced-motion](#) support, and a Lighthouse mobile score above 85. Ask for that score as an acceptance condition in the contract.
